DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to a method of screening or testing for candidate antifungal compounds.

Group II, claim(s) 4-7, drawn to a modified eukaryotic cell.

Group III, claim(s) 8, drawn to a method of screening using cell.

Group IV, claim(s) 9, drawn to a compound.

Group V, claim(s) 10, drawn to a composition.

Group VI, claim(s) 11, drawn to tRNA ligase enzyme.

Group VII, claim(s) 14-16, 18, drawn to a method of treatment in a host.

Group VIII, claim(s) 19-22, drawn to a method of treatment in a subject.

Group IX, claim(s) 17, drawn to a compound.

The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: there is no special technical feature since the inhibitor of claim 10 and

Art Unit: 1655

the TRL1 of claim 11 are not the same. Thus, there is no special technical feature and lack of unity exists.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
